

# FINANCIAL BUILDING

---

## AT A GLANCE

**Project Location:** Coushatta, LA

**Total Square Feet:** 1,731 sq. ft

**Building Type:** Financial

**Partnered With:** BOXX Modular

## OBJECTIVES

Boxx Modular reached out to ProMod in December of 2020 and advised they were awarded with a design/build contract with Carter Credit Union.

## SOLUTIONS

Promod Manufacturing and BOXX Modular partnered to create a building which consisted of three modules - a 13'9" x 46', a 11'9" x 46' module, and a 15'6" x 36' module. The building featured a curved wall in the main lobby as well as a beautiful curved ceiling soffit. While the main structure was produced at ProMod, many of the interior and exterior finishes were completed on site by BOXX Modular.
