

CITY OF HOPE ADMINISTRATIVE BUILDING

AT A GLANCE

Project Location: Durarte, CA

Total Square Feet: 16,480

Building Type: Administrative

Partnered With: Pacific Mobile 

OBJECTIVES

The City of Hope needed space for multiple parties to collaborate on the hospital's expansion project. The space would be utilized for meetings, planning, working, breaks, and more.

SOLUTIONS

Phoenix Modular partnered with Pacific Mobile Structures to manufacture and install 5 buildings, including a 144'x60', 72'x60', and 48'x60'. A 12'x40' and 8'x20' restroom and shower building allowed for ease of amenities onsite. The buildings were strategically placed in a triangular arrangement to allow for convenient access and movement between each building from the nearby parking lot. Careful consideration was taken in the design and construction of the aluminum ramp deck access system and skirting to ensure a seamless transition from building to building.
