

# SPECIALIZED STRUCTURES OFFICE BUILDING

## AT A GLANCE

**Project Location:** Willacoochee, GA

**Total Square Feet:** 3,808 sq. ft.

**Building Type:** Office

## OBJECTIVES

Specialized Structures's team was split in two separate locations: the manufacturing team was located in Willacoochee, GA, while the salesforce and upper management were located in Douglas, GA. As the company grew, communication between locations became increasingly difficult. They decided it was necessary to build a new office which could accommodate all employees under one roof.

## SOLUTIONS

Specialized Structures designed and manufactured their new office at their own factory in Willacoochee, GA. The new office was built 4x larger than their old office and includes a conference room, an open floor plan, high ceilings and lots of windows. The new space consists of 4 modules and is 3,808 sq. ft. Specialized Structures now has room to grow as a company, expand their team, and comfortably work together in one location.
