

CASE STUDY

PACIFIC MOBILE OFFICE

KEY FACTS

PROJECT NAME
Pacific Mobile Office

LOCATION
San Marcos, TX

SUNBELT FACILITY
Indicom Buildings

PARTNER
Pacific Mobile

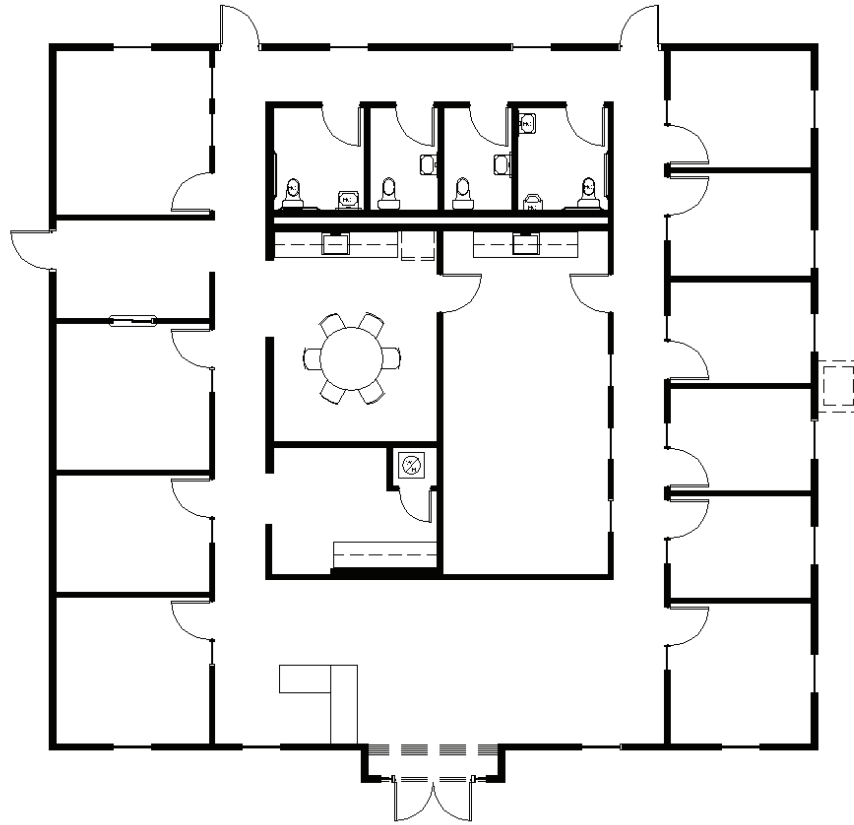

PROJECT TYPE
Multi-Office Space

BUILDING SIZE
3,360 sq. ft.

UNITS
Permanent modular branch office

Indicom Buildings partnered with Pacific Mobile to deliver a new branch office in San Marcos, Texas—marking Pacific Mobile’s very first location in the state. The 3,360-square-foot facility was designed to provide multi-office space and is attached to Pacific Mobile’s service building, ensuring seamless operations between administration and service support.

The new branch expands Pacific Mobile’s footprint into Texas, strengthening their ability to serve regional clients with responsive, localized service. Modular construction offered the speed, cost-efficiency, and flexibility needed to deliver this first-of-its-kind branch for the company.

BUILDING FLOOR PLAN INCLUDES

3,360 sq. ft. of multi-office space attached to Pacific Mobile's service building for operational efficiency

Flexible layout designed for future expansion opportunities and seamless integration with existing service operations

Configured to support branch administration and client service functions
